PRICE LIST OF

C. S. Harrison's Select Nursery

"

YORK, NEB.

*U.S. Department of Agriculture,
LIBRARY,
Washington, D. C.*

For Spring of 1906

Please Order Early. Stock cannot do as well if planted late, unless we except Evergreens, which should not be planted too early. Just before the buds swell is the best time for them.

Terms: Cash with order.

Mistakes corrected if we are notified within ten days of receipt of stock.

Please write NAME and ADDRESS plainly. We get letters no mortal can decipher.

We have the B. & M. and the C. & N. W. R. R. The Wells-Fargo, Adams and American Express.

Please let us know how you want stock sent.

Do not wait till the spring rush is on before ordering.

Smaller sizes of paeonies and perennials can go by mail. With the exception of a few hundred Bruning Peaches, that are very hardy, and exactly reproduce themselves from seed, we shall not offer any more fruit trees. Those wishing fruit trees or small fruits, can send to my sons, the Harrison Nursery Co., York, Nebraska, who will furnish the best assortment, put up in the best manner.

Remember, the two nurseries are entirely distinct. This is C. S. Harrison's Select Nursery. Have stock sent by express, if possible. Twenty per cent. off.

As to Guarantee.

Of course, our reputation depends on our accuracy. We hear very few complaints. Yet, as we have over a thousand varieties, mistakes may occur. Sometimes we get seed of good firms and they are deceived. We were thus caught once on Rocky Mountain Columbines. Sometimes plants from good seed will vary. Often we get stock of the best and most reliable firms in the United States and send it out in good faith, and it is not true to name. We will not be responsible for mistakes, but will cheerfully rectify them as soon as made known to us. We take the greatest care of paeonies. Once we got Festiva Maxima of a reliable firm, which they had raised for years, and they were not true. We are glad to correct all such errors. People pay for things, and should have what they buy.

We say again, DO ORDER EARLY. We cannot do as well by you when the rush is on.

The Select Nursery makes a specialty of Evergreens, Ornamentals, Paeonies and Perennials.

	I	10	100
Bruning Peaches, hardy and delicious,	\$.25	\$ 2.00	
" " smaller,	.15	1.00	

Shade and Ornamental Trees

Elms, 8 to 10 feet, heavy,	1.00		
" 6 to 7 feet,	.25		
Hackberry, hardy and beautiful, 5 to 7 feet,	.35	3.00	
" 4 to 5 feet,	.20	1.50	
Sugar Maple, Nebraska grown, heavy,	.50		
Bird or Black Cherry, 6 to 7 feet,	.25		
" " 4 to 5 feet,	.15		
The Thurlow Weeping Willow, one of the grandest and most rapid growers. For two years have had them grow nine feet from cuttings the first year. One on my grounds four years old was two feet around and 25 feet tall. Willows must have water or moist ground. These have straight stems, and limbs droop like fountain sprays when they get age. Magnificent for avenues or for the lawn; heavy,	.50		
Extra fine, 7 to 8 feet,	.25	2.00	
6 to 7 feet,	.20	1.50	
5 to 6 feet,	.15	1.00	\$.8.
Cuttings, Thurlow's Weeping Willow,	.25	1.00	
Norway Poplar, monarch of all,	.50		
Regal Willow, satiny silver, supremely beautiful,	.50		
Nivea, giant silver poplar,	.25		
Balm of Gilead,	.25		
European Linden, an attractive tree, 3 feet,	.25		
Scotch Elms, beautiful foliage, heavy,	1.00		
" " lighter,	.50		
English Elm, much like the above,	1.00		
" " lighter,	.50		
European White Birch, heavy,	1.00		
" " 7 to 8 feet,	.50		
" " 5 to 6 feet,	.25		
" " 3 to 4 feet,	.15		
Black Locust, fine, rapid growing trees, 6 to 7 feet,	.15		
Norway Poplar. This is something new, hardy and grand. This year some leaves measured twelve inches from end of stem to apex of the leaf, which was nine inches wide. It is exceedingly thrifty, making a marvelous growth.			
Large trees, 15 feet,	1.00		
Small trees,	.25		
Cuttings, per ten,	.50		
From ten cuttings, you can soon have a mighty forest. Try them.			
Balm of Gilead, healthy and thrifty, heavy,	1.00		
" " 6 to 7 feet,	.50		
" " 5 to 6 feet,	.25		
Norway Maple; very fine, 3 to 4 feet,	.25		
Wisconsin Large Leaved Aspen, 14 feet,	1.00		

Evergreens

We grow them, and you can. We will get them to you in the best condition, so you can make them live.

		I	10	100
Picea Pungens. Colorado Blue Spruce, 24 to 36,	\$1.00	\$8.00	\$50.	
" 20 to 24 in.,	.75	5.00		
Green ones that will probably turn blue, about half price.				
Black Hills Spruce, very fine and stocky,				
24 to 30 inches.	.50	4.00		
" 18 to 24 "	.35	3.00		
" 15 to 18 "	.25	2.00		
Douglas Spruce, beautiful, soft foliage, from the Rocky Mountains, 3 feet,	.75	5.00		
" 24 to 30 inches,	.50	4.00		
Concolor, the most beautiful and hardy fir, 2 feet,	.75	6.00		
Same, 14 to 20 inches,	.50	4.00		
Same, 10 to 14 inches,	.25	2.00		
Swedish Juniper. Irish Juniper is worthless in Nebraska and the west. Swedish is hardy. 2 ft.,	.75			
Same, 6 to 10 inches,	.25			
Ponderosa, or Bull Pine, native of Colorado and Nebraska, very hardy and easy to transplant.				
Transplanted, stocky, our own growing from seed, 24 to 30 inches,	.35	3.00		
Transplanted and well rooted, 12 to 14 in.,	.20	1.50	7.00	
Same, 10 to 12 inches,	.15	1.00	5.00	
Heavy Seedlings, 18 to 24 inch, strong trees,	.10	.50	3.00	
One-year Seedlings, grown in the open, fine,	.05	.25	1.00	
Scotch Pine, transplanted twice, 3 feet,	.25	2.00		
Same, 2 feet,	.15	1.00		
Same, 18 inches,	.10	.80	5.00	
Austrian Pine, one of the best, 36 to 40 inches,	.50	4.00		
The same, with ball of earth, in burlap,	1.00	8.00		
The same, 2 feet,	.50	4.00		
The same, 12 to 18 inches, fine,	.25	2.00	\$10.	
The same, 10 to 12 inches, fine,	.15	1.50	\$5.	
When packed in earth and wrapped in burlap, extra charge will be made.				
Pinus Flexilis, 8 to 10 inches,	.25	1.50		
Jack Pines, very thrifty growers, especially adapted to the sandhills, the most rapid growers of all the evergreens while young, 6 feet,	1.00			
Same, transplanted, 8 to 14 inches, thrifty,	.10	.50	3.00	
For Jack Pine seedlings and collected trees send to H. B. Ayers, Kimberly, Minn. He knows how to dig and pack. I did not lose 2 per cent. of his shipment last spring. He sells cheap.				
Silver Cedars. These, for the west, are the most beautiful of all the evergreens, in form like the Irish Juniper, conical and compact in shape.				

	I	10	100
Madam Plantier, white,	.50		
Gen. Jacqueminot, brilliant crimson,	.50		
Louis Van Houti, crimson maroon,	.50		
Mabel Morrison, white, with blush tinge,	.50		
Paul Neyron, the largest, nearly free from thorns, one of the grandest; fine fall bloomer if weather is moist,	.50		
Ulrich Bruner, brilliant, cherry red, one of the best,	.50		
Vick's Caprice, striped white and red,	.75		
Rosa Rugosa, immense single blooms, with lus- trous, dented and corrugated foliage, very fine perpetual bloomer,	.50		
Same as above, smaller,	.25		
Multiflora, wonderful masses of bloom,	.25		
Rosea Rubra, red stem and foliage, fine bloom,	.25		
Sweet Briar, fragrant and fine,	.25		
Harrison's Yellow, hardiest,	.25		
Forsythia, charming, early yellow flowers,	.25		

CLIMBERS.

Jackmani, clematis, large, purple,	.50
Paniculata, white,	.50
Graveolens, golden,	.50
Halleanea, Jap honeysuckle, very fragrant,	.25
Chinese, fragrant,	.25
Belgian Honeysuckle, everblooming,	.25
Bignonia, trumpet vine,	.25
French Yellow,	.25
Virginia Creeper. Quinquefolia,	.15
Wistaria, American,	.25
Chinese Wistaria,	.50
Bignonia Grandiflora, splendid, new,	2.00

Ornamental Hedges

Of late much attention is given to hedges and windbreaks. These should be beautiful, ornamental, and not too rampant growers. The Horticultural Society met on our experiment grounds last summer, and it was the unanimous opinion that the bush honeysuckle was an excellent shrub for a hedge. It has fine foliage, is beautiful in flower and fruit. It is not too rampant a grower, and will bear shearing, if necessary, and is very hardy.

Small plants, suitable for this purpose,	\$5.00
Silver Tamarisk is used on a large scale. Its beau- tiful, soft foliage and charming pink flowers make it very attractive, 1 to 2 feet,	4.00
Spirea Argut and Spirea Van Houtii are very fine, with masses of snowy flowers, drooping branches and rich autumn colorings for hedges.	
Small ones for this purpose,	5.00
Privet,	5.00

I IO 100

We Should Plant More Oaks

Fine Minnesota Burr Oaks, 6 to 7 feet,	.50
" " " " 5 to 6 feet,	.25
Catalpa Bungei. Umbrella tree, cut back,	1.00
Catalpa Speciosa, large and fine,	.50
" " smaller,	.25
" " 5 to 6 feet,	.15
Kentucky Coffee Tree, transplanted,	.25
Hop Tree. Bears great masses of hops; heavy,	.50
" " 5 to 6 feet,	.25
" " 3 to 4 feet,	.10
Basswood, heavy,	1.00
" 5 to 6 feet,	.25
Hercules Club. Immense, semi-tropical foliage and spiny stem; large, unique,	1.00
Smaller,	.50
European Alder, fine, showy tree,	.25
Wier's Cut Leaved Weeping Maple,	.50
" " smaller	.25
Norway Purple Leaved Maple,	2.00
Flowering Ash. One of these in an Omaha cem- etary was covered with snowy white tiny Eas- ter lilies. A superb tree,	1.00
Smaller.	.50
European Mountain Ash, fine, 7 to 9 feet,	1.00
" " " 5 to 6 feet,	.25
" " " 3 to 4 feet,	.15
Oak Leaved Mountain Ash, very heavy,	1.00

Trees and Shrubs of Golden Foliage

Golden Hop Tree, large,	1.00
" " " smaller,	.50
" " " little ones,	.25
Golden Elder, very showy	.25
Golden Spirea,	.50
Golden Syringa,	.25
Golden Privet, a mound of gold,	.50
" " smaller,	.25
Ligustrum, or Privet,	.25
" " small,	.10
Amurensis, or Russian Privet. Hardest of all; fine for hedges. Get one and plant cuttings.	.75
You can get quite a hedge from one plant.	.50
English Buck Thorn, showy, roots black as mid- night,	.25
Altheas, beautiful double white, lavender and red,	.25
Hibiscus, large, double white flower with crimson eye. Kills down like paeony top in winter,	.50

Ornamental Shrubs

SNOWBALLS—VIBURNUMS.

Sterrilis, the old favorite, large,	.50
" small,	.25

	I	10	100
Opulis. High bush cranberry,	.25		
Dentatum, fine, glossy, corrugated leaves, with masses of white flowers in the spring and great clusters of black berries in the fall. Hardy in Manitoba,	.50		
Smaller,	.25		
Lantana, charming in summer and fall foliage,	.50		
These four beautiful shrubs, small,	1.00		
TAMARISKS.			
African, 4 to 5 feet,	.25		
Plumosa, from Japan, beautiful plume of green, 6 feet,	.50		
Silver or Russian, very hardy,	.25	1.50	
This makes a beautiful hedge. We sold thousands of these, to go to Colorado. Especially valuable for the dry plains.			
Siberian Pea Tree, hardy and fine,	.25		
SYRINGAS—PHILADELPHUS.			
Coronarius, beautiful white flowers in the form of a crown,	.50		
Grandiflorus, fine, large blossoms,	.50		
French Mammoth, flowers two inches across, hanging in beautiful chains,	.50		
Gordon's Syringa, late, large and fine,	.50		
Avalanche, a mass of white,	.50		
Lemoine's, much like the last,	.50		
Smaller ones of each of the above,	.25		
The six larger size,	2.50		
The six smaller size,	1.00		
Wahoo, mass of red fruit in autumn, large,	.50		
“ smaller,	.25		
Hydrangea, wonderful in the fall, large,	.50	3.00	
“ smaller,	.25		
Japan Quince, brilliant scarlet flowers,	.25		
Flowering Almond, early masses of bloom,	.25		
SPIREAS.			
Tree Spirea—Opulifolia, beautiful in foliage, hemispherical flowers in bloom a long time, very vigorous and hardy,	.50		
Arguta, one of the first things to bloom, a mound of white in spring time; a perfect flower garden of rich foliage in December,	.50		
Van Houtii, a marvelous bloomer,	.50		
Bridal Wreath, double flowers like pearl buttons,	.50		
Thunbergii, white blossoms, and soft, fine, charming foliage, rich in autumn,	.50		
Douglassii, red flowers, growing in spikes,	.25		
Anthony Waterer, continuous red bloom,	.25		
Bumalda, pink bloom,	.25		
The two last are charming dwarfs. The above collection of eight, large,	2.50		
Smaller size,	1.00		

I IO 100

LILACS.

We have over fifty kinds. They are beautiful in their foliage and give a succession of flowers from early spring till the first of July.

Rothmogensis, or Rouen Lilac, purple,	.50
Rothmogensis Alba, white,	.50
Charles the Tenth, a mass of bloom,	.35
Tea's French Giant,	.50
Virginal, white,	.50
Senator Volland, rosy red double flowers,	.50
Cut Leaved, very delicate foliage,	.50
Dr. Bretschneider, immense leaves, June bloomer,	.50
Ambrose Verchaffelt, bright rose,	.50
Glorie d' Croncels, profusion of red bloom,	.50
Villosa, mass of bloom in June,	1.00
Variegated Emodi, large, variegated leaves, small,	1.00
Chinese Tree Lilac, honey scented, June bloomer,	1.00
Japanese Tree lilac, blooms in June,	1.00
These last are trees which grow nearly as fast and as large as our native ash. We have choice specimens of these trees 12 to 14 feet tall, \$2 to \$3 each.	

Ten of the above lilacs, one of a kind, heavy size, carefully labeled, including the tree lilacs, for	5.00
The whole fourteen,	6.00
Ten of smaller size, each different,	2.50

TREE OR BUSH HONEYSUCKLES.

Tartarian, Red Berried, Golden Berried, Grandiflorus, Chinese, Oriental, Marrowi, Siberian, Manchuriana.

Large size,	.50
Small size,	.25
The eight kinds, fair size,	1.00

SAMBUCUS OR ELDER.

Cutleaved, beautiful foliage,	.25
Golden,	.25
Silver Spotted,	.50

RHODOTYPHUS KERROIDES.

Charming shrub, beautiful foliage, white flowers,	.50
Symporicarpus, snow berry,	.25
" variegated,	.50
Koelreuteria, Golden Rod tree,	.50
Buffalo Berries, fine winter currants,	.25
	1.50

ROSES.

When you buy a rose, buy a good, strong one, and save time and vexation. Mail order roses, \$1 per dozen, are a "delusion and a snare." You lose your plants, your time, and money. Get good strong ones and pay for them.

Crimson Rambler, heavy, 50, light,	.35
Dorothy Perkins, splendid bloomer,	.50

	I	10	100
--	---	----	-----

The foliage glistens with frostings of silver. Sometimes they are of a weeping habit, as if shingled with silver and emerald. Very hardy, and do not blight like the Platte Cedars. Beautiful trees, 6 feet, with ball of earth and burlap, packed in the best manner, -----	3.00	\$20,	
Same, 4 to 5 feet, -----	2.00	\$15.	
Same, 18 to 24 inches, -----	.75	\$10.	
No yard is complete without one of these charming trees.			
Platte Cedars. Are worthless, yet we have a few.			
2 to 3 feet, -----	.25		
Chinese Arbor Vitae. For Southern Nebraska, Kansas and the South West, these are very valuable. They have beautiful, evergreen fans converging toward the center, and are very thrifty. 3 to 4 feet, -----	.50	2.50	\$10.
Same, 20 to 30 inches, -----	.25	1.50	\$10.
Same, 15 to 20 inches, -----	.15	1.00	\$5.
Two-year Seedlings, 10 to 14 inches, -----	.05	.25	1.50

A CAR-LOAD OF PICEA PUNGENS, recently transplanted, 4 to 6 feet. These are in our mountain nursery, at Beulah, Colo. They are probably the only available lot of that size in the United States. They must be moved with a ball of earth, and be taken to the cars at Pueblo, 28 miles. This will be done by experienced hands, in the best manner. Write for prices. This lot must be sold entire.

“Evergreens, and How to Grow Them.”

This is the most complete work for the farmer and nurseryman ever published. It is designed especially for the middle and the northwest, where these trees are most needed. This work is the result of over 30 years' experience in the trying climate of Nebraska. Is is pressed and packed with needed information. Price,

Paper Cover, 25c. Cloth Cover, 50c.

It is well illustrated. With this guide farmers can add hundreds of dollars to farm values by planting evergreen groves and windbreaks. A copy in paper covers to each one who buys \$3.00 worth of evergreens. Cloth bound to one who buys \$10 worth.

The Gold Mine in the Front Yard, -----	\$1.00
International Paeony Manual, -----	.30
How to Raise Phloxes (in stamps) -----	.15
